ALLEN PLANT MOVES TO OHIO METROPOLIS

TO OHIO METROPOLIS

COLUMBUS, O.. May 3.—During the past week regotiations which had been under way for months, were completed in bringing about the removal of the Allen Motor company from Fostoria and Bucyrus to Columbus. O.

The company has increased its authorized capital to \$3,000,000. In this industrial expansion many of the most influential business men in Columbus have taken a financial interest. The Scioto Rubber contrany is absorbed in the deal and the plant formerly used by the Columbus Buggy commany is to be occupied by the Allen factories.

It is planned to build \$,000 cars within the first year and to increase production as rapidly as possible. The new plant, it is estimated, can build 20,000 cars, as soon as the additional machinery can be installed and the production and selling organization proportionately enlarged.

In 1916, previous to war restrictions, \$,000 Allen cars were built, which was the maximum annual production possible in the factories where the Allen brothers, E. W. and W. O. Allen, have been operating for six years

"Columbus will give us an opportunity," said W. O. Allen, "to utilize the full power of our "90 dealers and distributors, and to be ter meet the growing demand for a car of the Allen type."

Machinery for the new plant has already been shipped and the various factory departments are moving to Columbus as rapidly as possible.

The noble women who began the work 12 or 15 years ago have managed it well. They saw the need and took steps to meet it. They assumed a great burden of debt, but managed so well that each year it is being reduced. They have a bonded debt new of \$18,000 and want to pay off \$4,000 of that amount this month.

The people of Memphis know what amount this month.

The people of Memphis know what the work is at the Home for Incurables, and have always been most generous on Tax day. The gifts have increased every year on this one day on which the public appeal is made. Memphis has much to be thankful for this year and every one of us can afford to give something-te aid in the work.
